Abstract— As it is clear from the name of this paper, this article is as the last addenda to my previous papers [1, 2, 3, 4]. This paper has some illustrations of these previously published papers. In fact, this is my last paper. Again it is said that Iran is and I am NOTHING and will not become anything in the science.

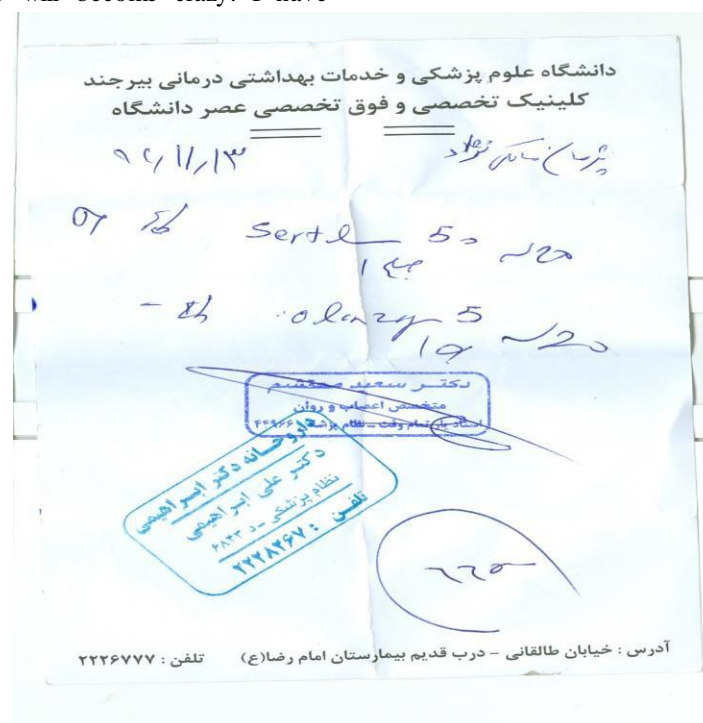

Keywords— Schizophrenia, Depressive Realism, Song.

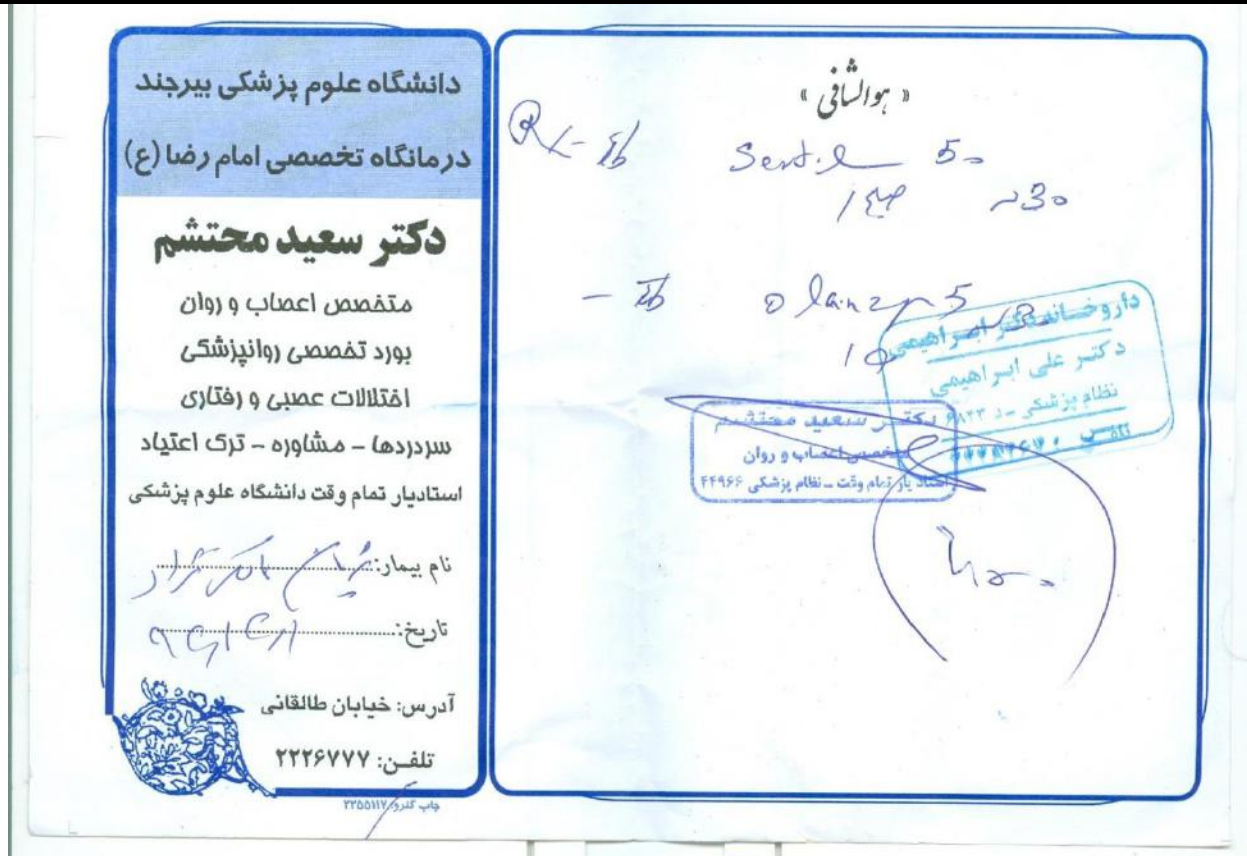

MAIN BODY OF THE MANUSCRIPT

The Supreme news agency of Voice of America (VOA Persian) has issued an article [5] that is in the same line with this paper. In fact, that article from VOA Persian confirms this paper. Also His Majesty Crown Prince of Iran Reza Pahlavi has a saying from Atamalek Joveini about Iran Islamic Regime as “They came and dug and burned and killed and took away and went” [6] which approves this paper.

According to the principles of DEPRESSIVE REALISM, those who have intelligence will become crazy. I have

officially said in my 4 articles titled “Criticism of the Current Science in the World” and “its 3 Addenda” that I am nothing and also I am nothing in the science and I do not have any intelligence [1, 2, 3, 4]. Therefore, according to the principles of DEPRESSIVE REALISM, I must always be happy. Some people are trying to make me crazy (for example they do not give me a job, some people prevent my immigration to other countries or my friends do not speak with me and etc.) which shows that they do not understand anything from craziness and they are mockery. Making people crazy has its own principles. These articles of mine were published in international journals and are available with their Farsi translation in my website [7]. I have suffered very much from schizophrenia (or depression and any other mental disorders) as a result of DEPRESSIVE REALISM. For example, I failed in all aspects of life like friendship, job, education and etc. My manuscripts of psychiatrist are shown in the following figures.

The drugs like Risperidone and Olanzapine which I used to treat schizophrenia, were hypnotic to relax the patient. The reason why my parents behave me like a crazy man is that they do not want me. Some people knew that I will not become anything in the science but they made me crazy since majority of people do not know this and think that all the science is revealed in public and as a result I am intelligent. But the truth is that I am nothing in the science and I am not intelligent at all. The people only see this little amount of science of me and they think that I am intelligent. I have previously shown that I am scientific and all the people think that I am intelligent by misinterpretation. Therefore, I decided to write these articles [1, 2, 3 and 4] to say that I am nothing and I am not intelligent at all. The people see me as the only intelligent man but I am nothing. My character was very showing. I do not have any intelligence.

As I have previously said, beside the political and scientific aspects of my 4 previous papers [1, 2, 3, 4], a main goal for writing these papers was to announce internationally that I am nothing. As a result, I do not have any intelligence or as I told previously, I am not intelligent, genius, mastermind, intellect, extraordinary, wonderful and etc. I said that I will not become anything in the science and since everything is scientific in this world, then I will not become anything.

There are very scientific Iranian songs similar to this article and my 4 previous papers [1, 2, 3, 4]. For example, I said that universities are waste of time. This matter is represented in the best way in the song of "Ali Konkoori" from the famous Iranian singer of "Dariush Eghbali" [8]. Also there is a song of "Khosh Beh Hale Divooneh" from the famous Iranian singer of "Soosan" which describes the phenomenon of DEPRESSIVE REALISM in the best way [9]. Also there is a song of "Vatan" from "Dariush Eghbali" which describes the current conditions of Iran in the best way [10]. The very nice song of "Shahregh Gham" from "Dariush Eghbali" describes only some of my pains due to DEPRESSIVE REALISM [11]. Again I say that I am nothing and I do not have any intelligence. In my previous papers [1, 2, 3 and 4] I have mentioned a small part of Iran scientific problems that Iranian cannot solve them and will never be able to solve them. If anybody has a solution for those scientific problems, then I invite him/her to present his answer in an international journal. The answer to article is by article. The experts of political sciences will judge who is true and who is false. There are lots of stupid articles in internet.

CONCLUSION

The only way that I strongly suggest for the scientific and economic advancement and development of Iran in all fields is to make, regard and announce Iran as a state of USA (United States of America) officially and politically (and totally). I.e. Iran should make and regard itself as a state of USA (United States of America) politically (and totally). I have heard that this idea was first suggested by Eminent Mohammad Reza Shah Pahlavi for Iran.
