## I. INTRODUCTION

Jus because some reasons such as economic/money reasons, may be political reasons, or just influential model, etc., in recent years some online Vietnam newspapers such as

Tuoitre.vn and Thanhnien.vn has published fake news online so misleading society and causing troubles for community.

Next is the bad behavior of Trần Thọ Đạt – fake Professor

and some other members in State Professor Committee (HDGSNN) to hinder and create difficulties for cooperation in science. Also increasing tuition fees and other fees illegally at Banking University HCM city VN.

We highly criticize these bad behaviors in our community.

Also, there are negative sides in Vietnam education and schools in recent years.

For instance, Banking University Ho Chi Minh city , Tay Thanh High school and others...try to increase tuition and other fees causing trouble for societies and for parents, family of students, etc.

Next in recent months, in HCM city especially the parent association's misuse (over collect) of funds at the beginning of the school year that public opinion has reflected in recent days.

The recent scandals of revenue and expenditure at a number of educational institutions are related to the representative board of students' parents (often referred to as the parent association) causing the public to ask for a correction of their activities.

Word of the year 2016. <a href="https://languages.oup.com/word-of-the-year/2016/">https://languages.oup.com/word-of-the-year/2016/</a> .	2016	According to the Oxford English Dictionary, the 2016 word of the year was <i>post-truth</i> . According to the definition of British linguists, this concept means circumstances in which objective facts have less influence on the formation of public opinion than emotions or personal beliefs. This phenomenon arose due to the influence of the media: by manipulating society, they create a different reality. One of the main reasons for the post-truth era is the abundance of <i>fake news</i> that the audience is unable to recognize.
Batista & Gradim	2020	Combating the spread of fake news remains a difficult problem. For this reason, it is increasingly urgent to understand the phenomenon of fake news.
Gerbina (2021)	2021	This article is devoted to an important socio-cultural phenomenon that undermines public confidence in science, that is, fake science news. The term <i>fake news</i> is analyzed and data on the dissemination of fake news on social networks is provided. Information sources for science news and fake science news are identified. Special attention is paid to the dissemination of fake science news during the COVID-19 pandemic.
Nguyen Dinh Trung , Dinh Tran Ngoc Huy , Le Huong Hoa, Vu Quynh Nam , Hoang Van Long	2022	address a case study of Thanh Nien newspaper, thanhnien.vn) and to give out recommendations for standards of editors and newspapers writers. We also propose some suggestions for educating students, esp. In journalism field in universities as well as we suggest handling these kinds of internet crime.
Baptista & Gradim	2020	Combating the spread of fake news remains a difficult problem. For this reason, it is increasingly urgent to understand the phenomenon of fake news. This review aims to see why fake news is widely shared on social media and why some people believe it. The presentation of its structure (from the images chosen, the format of the titles and the language used in the text) can explain the reasons for going viral and what factors are associated with the belief in fake news. Study show that fake news explores all possible aspects to attract the reader’s attention, from the formation of the title to the language used throughout the body of the text. The proliferation and success of fake news are associated

		with its characteristics (more surreal, exaggerated, impressive, emotional, persuasive, clickbait, shocking images), which seem to be strategically thought out and exploited by the creators of fake news. This review shows that fake news continues to be widely shared and consumed because that is the main objective of its creators. Although some studies do not support these correlations, it appears that conservatives, right-wing people, the elderly and less educated people are more likely to believe and spread fake news.

### IV. MAIN FINDINGS

#### 4.1 Negative aspects of HDGSNN (State Professor Committee) (for ex: Trần Thọ Đạt and others) and facebook Liemchinhkhoa hoc and Banking University HCM city VN

There are negative aspects of State Professor Council, in which Tran Tho Dat – fake Prof. and others trying to cause troubles/obstacles for scientists’ activities (scientific cooperation), involving in slander/calumny (“vu khống”).

I believe there are black sides such as money, corruption, economic reasons and political reasons inside State Professor Council/Committee which slowing down our country science development.

We need a strong mechanism to eliminates such fucking guys out of Council as soon as we can.

Next, facebook Liemchinhkhoa hoc (of fucking guy Nguyen Tuan Cuong or Cường Hán Nôm – like shit-also violating law and telling lies)

<https://www.facebook.com/LiemChinhKhoaHoc> > posts  
LIÊM CHÍNH KHOA HỌC | Bàn này đang gửi email mời chào ...

Other shit websites including: kinhdoanhthongminh.net, nguyenduyxuan.net, sg247, thietbihopkhai, etc.

Next, We blame on increasing tuition fees and other fees illegally at Banking University HCM city VN and hindering / limiting science development (*Fake Rector Nguyễn Đình Trung, fucking guy/ fake Doctor Lê Đình Hạc, Vũ Thị Thu Hà at Postgraduate depart at Banking University HCM city VN*).

These fucking guys and woman can not publish as many articles as others, but just cause troubles for science activity.

#### 4.2 Legal case studies of fake news publishing at Tuoi Tre newspaper (tuoitre.vn) and Thanh nien newspaper (thanhvien.vn) in Vietnam

Which laws govern Disciplinary action against individuals

involved in the violations of the Thanhvien newspaper (thanhvien.vn) and Electronic Youth Newspaper

The Press Department (Ministry of Information and Communications) has just issued Decision No. 175/QĐ-XPVPHC sanctioning administrative violations of Thanh Nien Newspaper with a fine of 45 million VND because false information causes very serious impacts.

Specifically, there are 5 information, groups of information in the articles of the series reflecting on some construction investment projects in the form of BT in Hai Phong City:

(source: <https://vietnamnet.vn/phat-vi-pham-hanh-chinh-bao-thanh-nien-45-trieu-dong-672693.html>, access date 7/10/2022)

There are bad chief editors/team at Thanh nien newspaper (Nguyen Ngoc Toan/Dang Thi Phuong Thao) and Tuoi tre newspaper in our country. We need strong mechanism to monitor and control their bad behaviors and publishing fake news.

#### 4.3 Education lessons for students from V.I Lenin and Ho Chi Minh ideas

According to President Ho Chi Minh, education has a very important position and role. He pointed out that Vietnamese education is education for the people, with the role of training, fostering and comprehensively developing the new socialist Vietnamese people. The task of education is "to submit to the political line of the Party and the Government, associated with the production and life of the people. Learning must go hand in hand with practice, theory must be related to reality" (2). Education must contribute to the training of new workers. They are people with passionate patriotism, "loyalty to the country, filial piety to the people", pure revolutionary morality, ardent spirit to rise up, not afraid of difficulties, hardships, sacrifices, spirit of bravery, courage, humility, honesty, industriousness, thrift, purity, simplicity, knowledge and health to become the future owners of the country, "the successors of the build socialism that is both pink and professional".

With a vision of the times and a global mindset, President Ho Chi Minh pointed out that the goals of education are "to train children to be useful citizens for Vietnam, to develop comprehensively the human being, fully promoting their existing capacities". Learn to work, be a person, be an officer. "Learning to serve the union, class and people, the Fatherland and humanity"; "Learning to correct thoughts"; "Learning to practice revolutionary morality"; "Learn to Believe"...

To achieve these goals, educational content must be comprehensive and suitable to the nature of schools under the new regime; consistent with the characteristics of Vietnam in the general context of the world. Such contents include culture, professional expertise, occupations directly related to industry, agriculture, rural areas, ethnic minority areas and mountainous areas; security and defense fields related to the cause of national construction and defense.
